

Solid Block

Product (name) Solid Block	Size (mm) 265 x 600	Width (mm) 170 / 180	Edge not chamfered	Colours standard beige	In Stock Yes
--------------------------------------	-------------------------------	--------------------------------	------------------------------	----------------------------------	------------------------

Specifications

Product type	Solid Stone Masonry Units
Manufactured to	BS EN 771-5:2011+A1:2015
Unique identification code of the product type	(i) Recobel Solid-600x180x265 Beige Honed (ii) Recobel Solid-600x180x265 Beige Hammered & Brushed Non Structural Walls / Structural Walls

Optional Finishes
Intended use or uses

Essential Characteristics

Dimensions (1)	Length	600mm
	Width	170 /180 mm
	Height	265mm
	Tolerance category	D2
Configuration (1)	Group according to EN 1996-1-1	Group 1
Compressive Strength	Normalised compressive strength	18 N/mm ²
	Direction of load	Non-Perpendicular to bed faces
	Unit category	Category II
Dimensional Stability (1)		NPD
Reaction to Fire (2)		A1
Water Absorption (3)		<0.9g/m ² s
Durability against freeze/thaw		Suitable for local external context only
Salt Crystallisation Test	BS EN 12370:1999	30% loss of weight (15 cycle test)

No. of blocks per pallet	24 / 30	Weight per pallet (kg)	1512 / 1417.5
---------------------------------	---------	-------------------------------	---------------
